

DETAILS

TRANSPLANTING MACHINES

The **exclusive flat profile** of the needles and the closing system **allow an excellent grip** of the plug even with weak-rooted plants.

INCLUDED ON:

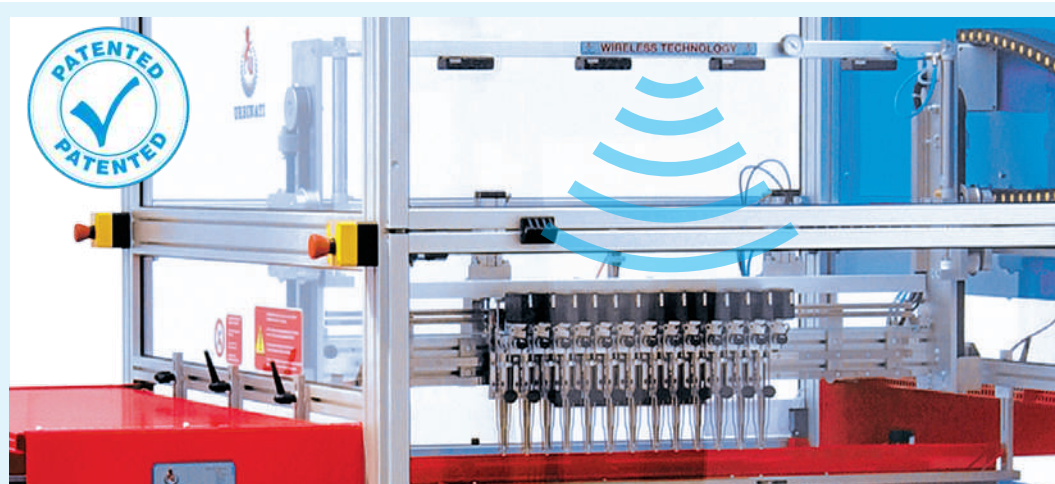

ALL TRANSPLANTING MACHINES

Possibility of programming the **transplantation of different varieties** in the same container.

INCLUDED ON:

RW64, RW32

Grippers with patented wireless technology: the grippers are cable free, for maximum flexibility in use with all types of containers.

Thanks to the **modularity of the design**, our transplanting machines share **common parts**.

The following pictures show **some of the most significant details** they share.

PROGRAMMING

Examples of programming on the board with a colour touch-screen system and an innovative graphic software for the operator easy to use.

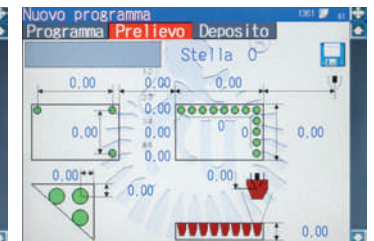

Main menu to enter into different functions.

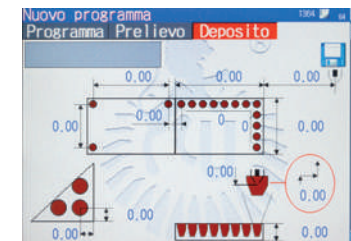

State of the machine with selected program number.

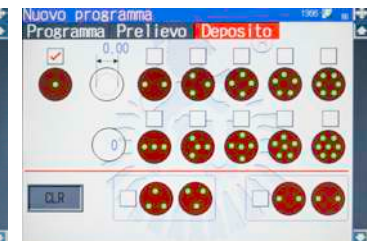

Program function with plug and destination option.

Program function with plug option.

Program function with destination option.

Number of plugs per pot: configurations with or without central plant.

INCLUDED ON:

ALL TRANSPLANTING MACHINES

These are **some of the main accessories** available for our **transplanting machines**.
Our **engineering dept.** is at your disposal **to suggest the best solutions** for your needs.

MAIN ACCESSORIES

TRANSPLANTING MACHINES

Tray block from top in plug axis for thermoformed trays.

AVAILABLE ON:

ALL TRANSPLANTING MACHINES

The fingers with the open star are suggested to transplant the forest varieties.

AVAILABLE ON:

ALL TRANSPLANTING MACHINES

Double speed outfeed conveyor belts at deposit side: available in different lengths L = 1300 / 2420 / 3000 / 4000 mm. They can be accessorised with tray holders.

DISPONIBILE PER:

ALL TRANSPLANTING MACHINES *except* RW8POTS

With the third additional conveyor belt for single pots, the machine can be set with two destination area.

AVAILABLE ON:

RW24, RW16, RW5

Plug tray denester with young plants.

AVAILABLE ON:

ALL TRANSPLANTING MACHINES

Transplanting in multiple configurations, particularly suitable for aromatic herbs.

AVAILABLE ON:

RW8POTS
